## Root Cause of Denials?

|               |   |
|---------------|---|
| <b>What:</b>  | Lost Revenue and/or Increased Costs   |
| <b>How:</b>   | Overworked, Missing Visibility, Unclear Policies & Procedures   |
| <b>Where:</b> | Throughout the Revenue Cycle  |
| <b>Why:</b>   | Registration data entry, Pre-authorization and medical necessity, Eligibility and benefits checking, Clinical documentation, Coding, Claim editing, Other regulatory requirements entire revenue cycle, Lack of Automated, Integrated Rule-Based Workflow Tools, Turnover, etc... |

© The SSI Group, LLC Proprietary and Confidential 12

12

**There is no single root cause for denials, nor is there one single trouble area.**

**Rather, problems that lead to a denied claim occur throughout the revenue cycle.**

**...However, following the numbers do provide a path...**

# Private Payers Retain Profits by Delaying Legitimate Medical Claims

Percentage of Claims Initially Denied, By Payer Type

- Nearly 15 percent of all claims submitted to private payers for reimbursement are initially denied
- Denied claims tended to be more prevalent for higher-cost treatments - \$14,000 and up.
- Over half (54.3%) of denials by private payers were ultimately overturned

# Actionable Measures for Denial Prevention & Best Practices for Patient Access

23

## THE APPROACH

- Implement an Advisory Team
- Define the problem and set your goals
- Define a phased approach by prioritizing the quick wins and biggest issues
- Measure progress continuously and publish the information internally

24

# LOW RISK, HIGH IMPACT

|  |                              |                                  |                           |
|--|------------------------------|----------------------------------|---------------------------|
| Simple and quick to implement                                | No/Few IT resources required | Minimal Admin decisions required | Minimal End User Training |
| Immediate reduction of rejections, denial, RTPs, recoupments | Cash acceleration            | Process Improvement              |                           |

## COB Denials in AR

Identify and correct payer order to prevent unnecessary denials

 DENIAL PREVENTION

- ✔ Adjustment Reason Codes 109 and 22
- ✔ Targeted approach for immediate denial reduction
- ✔ Medicaid Managed Care Plans account for the majority of COB denials
- ✔ In Arkansas
  - ✔ AR Medicaid account for the highest dollar amount
  - ✔ Followed by United Health and AR BCBS
- ✔ Medicare accounts for the most COB denials

Overall, this segment account for **17% of all denials**

30

30

# Aide Codes in Large CA Health System

**Example**

MSG\*CNTY CODE: 19.  
 PRIMARY AID CODE: M1.~  
 EB\*D\*\*\*\*INCORRECT~  
 MSG\*MEDI-CAL IC INCORRECT  
 - SENT IC 000, RETURNED  
 PRIMARY IC - 644~

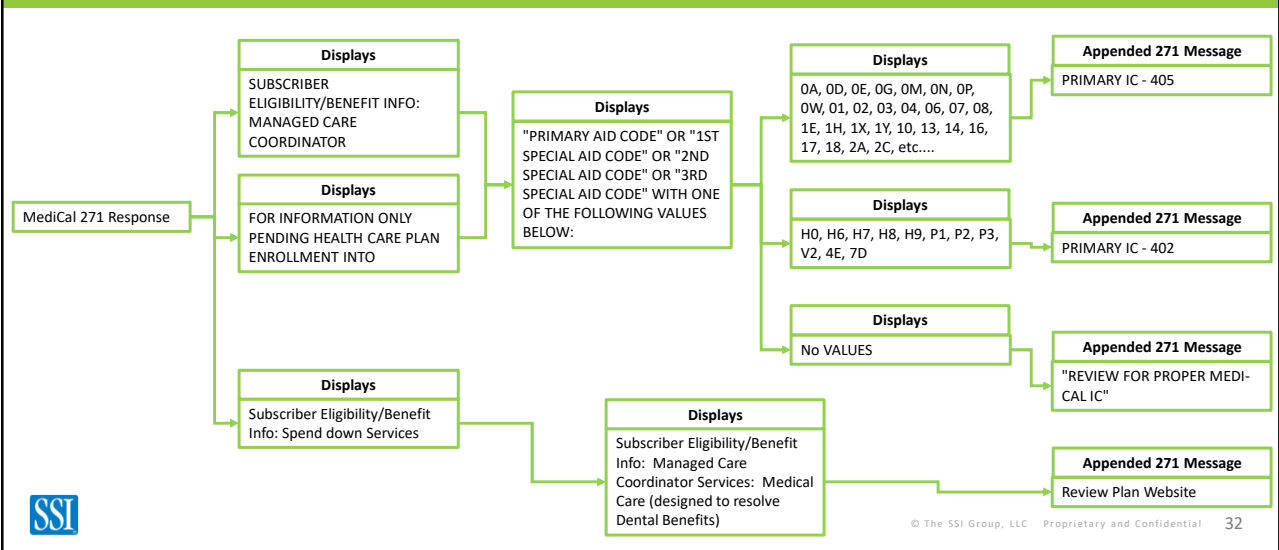

**Problem:**

- MediCal provides cryptic messages imbedded in the 271 response that, if not properly addressed, will result in downstream reimbursement issues

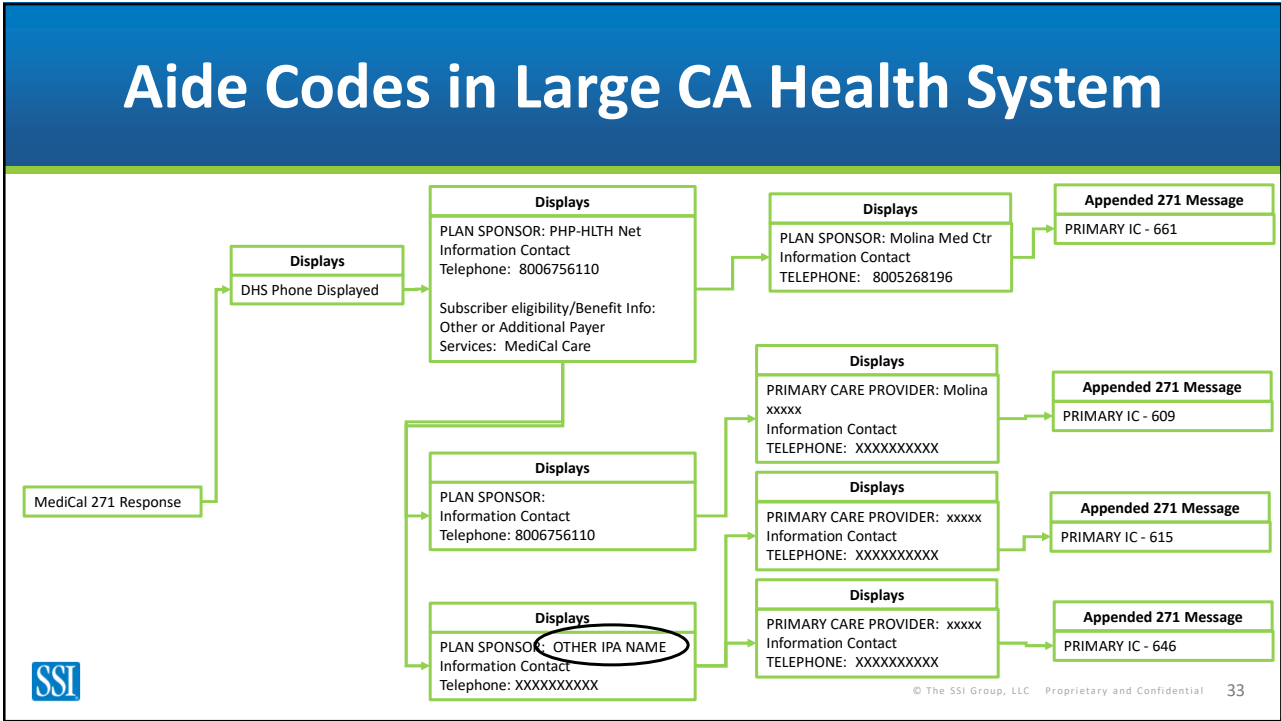

**Solution:**

- Developed a coding matrix to interrogate the 271 response
- Based on rules, append 271 before posting-back to source of truth. The appended responses guide staff on specific benefits and exactly where to submit the claim

# Aide Codes in Large CA Health System

33

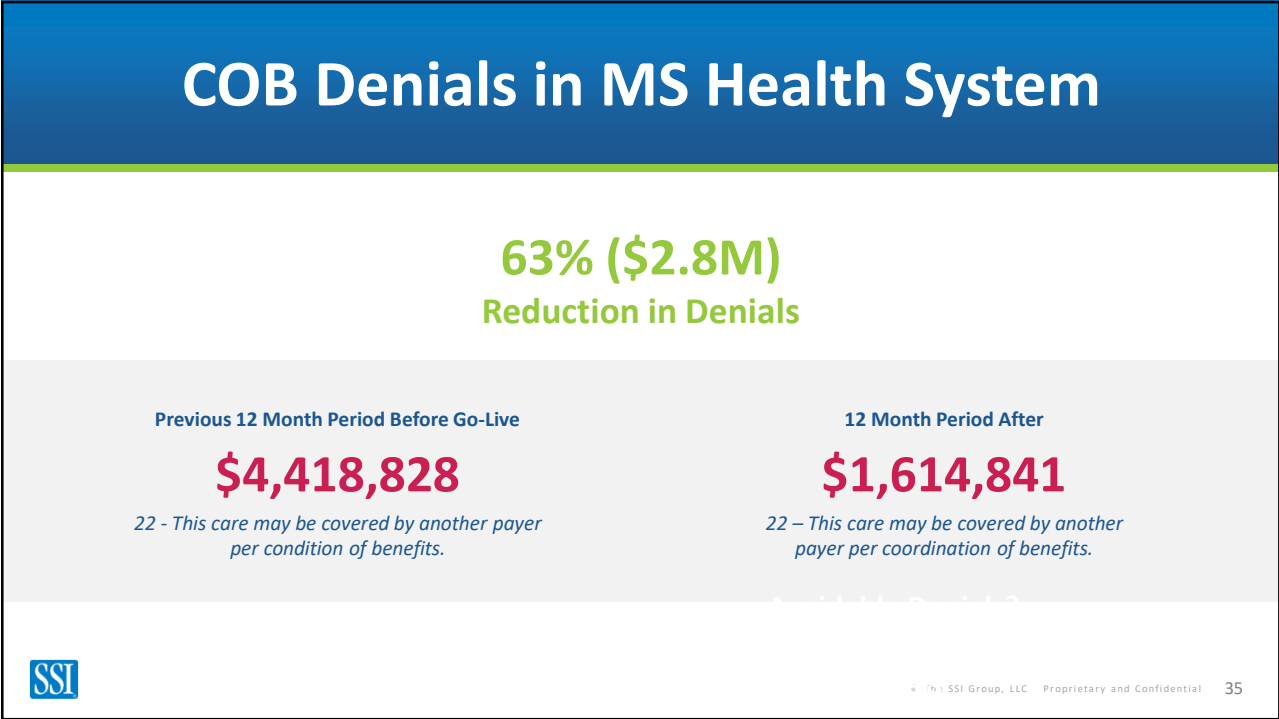

# Coverage Denials in MS Health System

| Description  | Claim Count   | Claim Total            |
|--|---------------|------------------------|
| Contact Following Entity for Eligibility or Benefit information.                             | 6513          | \$22,699,862.32        |
| Other Coverage Found.  | 3949          | \$17,509,342.03        |

## Industry Updates

- Audience to Share Experiences

38

# Anticipated Medicaid Unwinding

■ Mar 2024 (5 states) 
 ■ Apr 2024 (12 states) 
 ■ May 2024 (15 states) 
 ■ Jun 2024 (8 states) 
 ■ Jul 2024 (5 states) 
 ■ August 2024 or Later (4 states and DC) 
 ■ Under Development (1 state)

SSI Source: KFF

© The SSI Group, LLC Proprietary and Confidential 39

- The Medicaid continuous enrollment provision, which had halted Medicaid disenrollments since March 2020, ended on March 31, 2023
- States began disenrolling people from Medicaid in different months
- As states unwind the continuous enrollment provision patients will be disenrolled due to ineligibility or unable to complete the renewal process
- Millions of people are expected to lose Medicaid coverage during this unwinding period

39

# Medicaid Disenrollment

■ Disenrollment Rate 
 ■ Renewal Rate

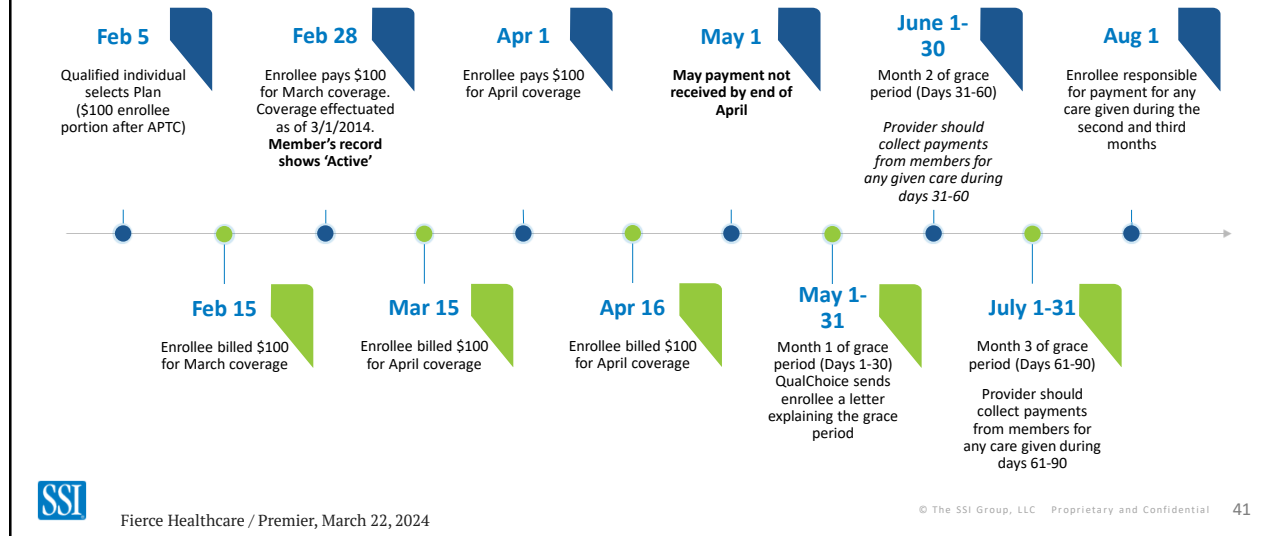

SSI Source: KFF

© The SSI Group, LLC Proprietary and Confidential 40

- There is wide variation in disenrollment rates across reporting states, ranging from 57% in Utah to 12% in Maine
- 23 million Medicaid enrollees have been disenrolled as of June 14, 2024
- Of all who were disenrolled, 69% were terminated for procedural reasons
- CMS recently announced that the Unwinding Special Enrollment Period (SEP) has been extended until November 30, 2024.
  - Patients now have three opportunities to select coverage
  - Potential changing coverage and confusion for the provider

40

# Affordable Care Act (ACA) Grace Period

41

# Overall Impact on Coverage & Denials?

Nearly one in four people who were disenrolled from Medicaid remain uninsured, according to a [KFF poll](#).

Medicaid denial rates from 2022 – 2023 for 44 States - Denials related to coverage

- Increase of 3% in denial dollars
- Increase of 6% in number claim adjustments
- According to CDC estimates published Aug. 5 2024, 8.2% of Americans were uninsured in the first quarter of 2024, up from 7.7% in the fourth quarter of 2023.
- ACA exchange enrollment increased to 16.6 million in the first quarter of 2024, up from 13.3 million in the last quarter of 2023. Federal agencies have worked to steer individuals losing Medicaid coverage to exchange plans.
