

1

This slide is titled 'Denials Under the Microscope: Identifying Root Causes, Protecting Revenue'. It features the CorroHealth logo in the top left corner. The main title is in large, white, sans-serif font. Below the title, the text 'Identifying Root Causes, Protecting Revenue' is in a slightly smaller white font. The slide is presented on a dark purple background with a subtle, light purple radial gradient pattern. At the bottom, there is a small line of fine print: '© CorroHealth, Inc. 2026. All Rights Reserved.'

**Denials Under the Microscope:**  
Identifying Root Causes, Protecting Revenue

## Discussion Points

# Impact of Denials

### Strategies:

- Data & Root Cause
- Review Workflow
- Accurate and Complete Documentation
- Robust Appeals Process
- Monitor, Track, Report
- Education and Training
- Continuous Process Improvement

3

## Impact of Denials

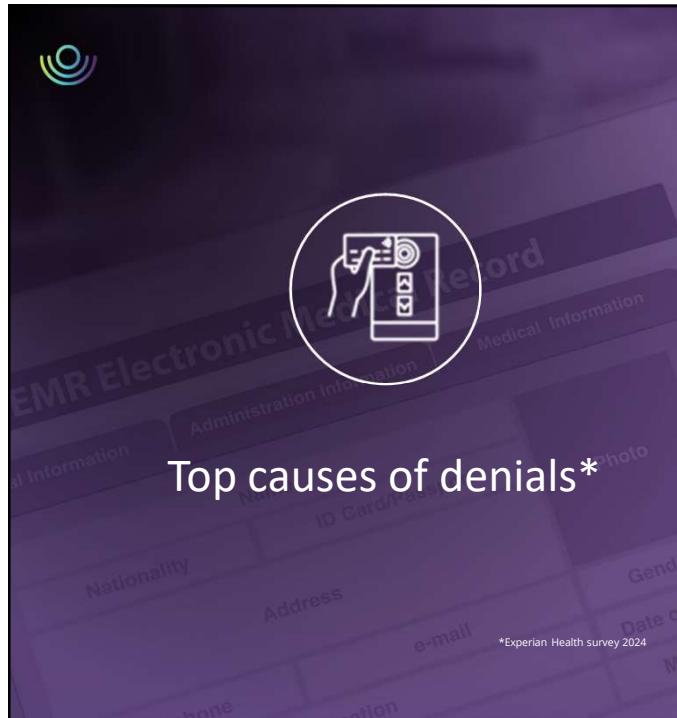

1. Report: The State of Claims 2022, Experian Health ([www.experian.com/healthcare/resources-insights/thought-leadership/white-papers/white-papers/white-papers/state-claims-report](http://www.experian.com/healthcare/resources-insights/thought-leadership/white-papers/white-papers/white-papers/state-claims-report))
2. RCM Admin Tasks Driving Up Costs: Payer Tech to Blame, HealthLeaders, September 16, 2024
3. Success in Proactive Denials Management and Prevention, HFMA, May 1, 2021

- **89% of all hospitals have seen a significant increase** in denied claims<sup>1</sup>
  - **15%** in a most recent survey
- Providers spent **\$20B** in 2022 pursuing delayed and denied claims from payors
  - Average of **3 rounds of reviews**; 45-60 days each round
- **11.8% of hospital claims are initially denied.**
- **AR days increased 5.2% year over year**
- **90% of denied claims are preventable<sup>3</sup>**
  - 35% of providers appeal denials even though 67% of denied claims are **recoverable<sup>3</sup>**
- Providers collected about **\$3 less in 2024 for every \$100** that insured patients on their portion of the bill

4

4

**Top causes of denials\***

**46%**  
Missing or inaccurate data

**Followed by:**

- Authorizations: 36%
- Patient information inaccurate/incomplete: 30%

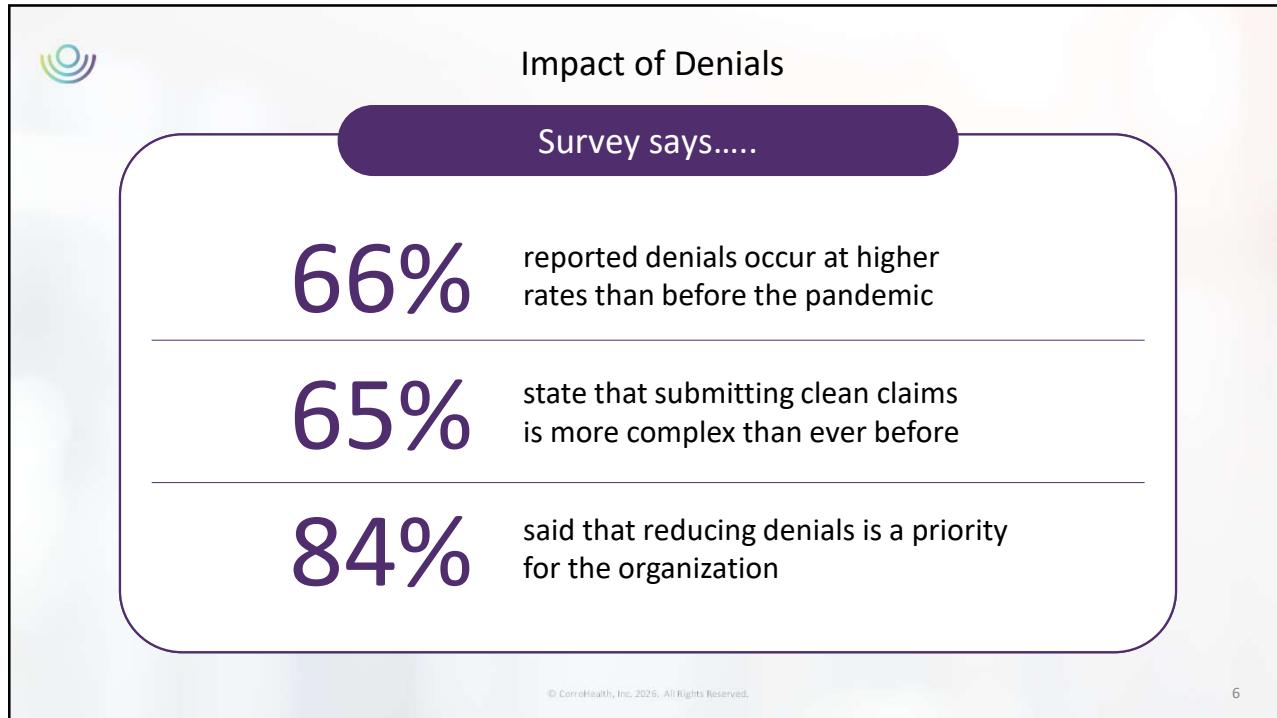

**Others:**

- Coordination of Benefits (COB)
- Coding errors
- Staff shortages
- Poor training
- Missing Coverage
- Payer policies
- Timely filing

\*Experian Health survey 2024

5

**Impact of Denials**

**Survey says.....**

- 66%** reported denials occur at higher rates than before the pandemic
- 65%** state that submitting clean claims is more complex than ever before
- 84%** said that reducing denials is a priority for the organization

© CorroHealth, Inc. 2026. All Rights Reserved.

6

## Factors for the Increase In Denials

- **Payer policy changes occurring more frequently**
- Lack of denials resources
- Staff attrition and training
- Growing denials backlog
- Pre-authorization tracking
- Technology challenges

7

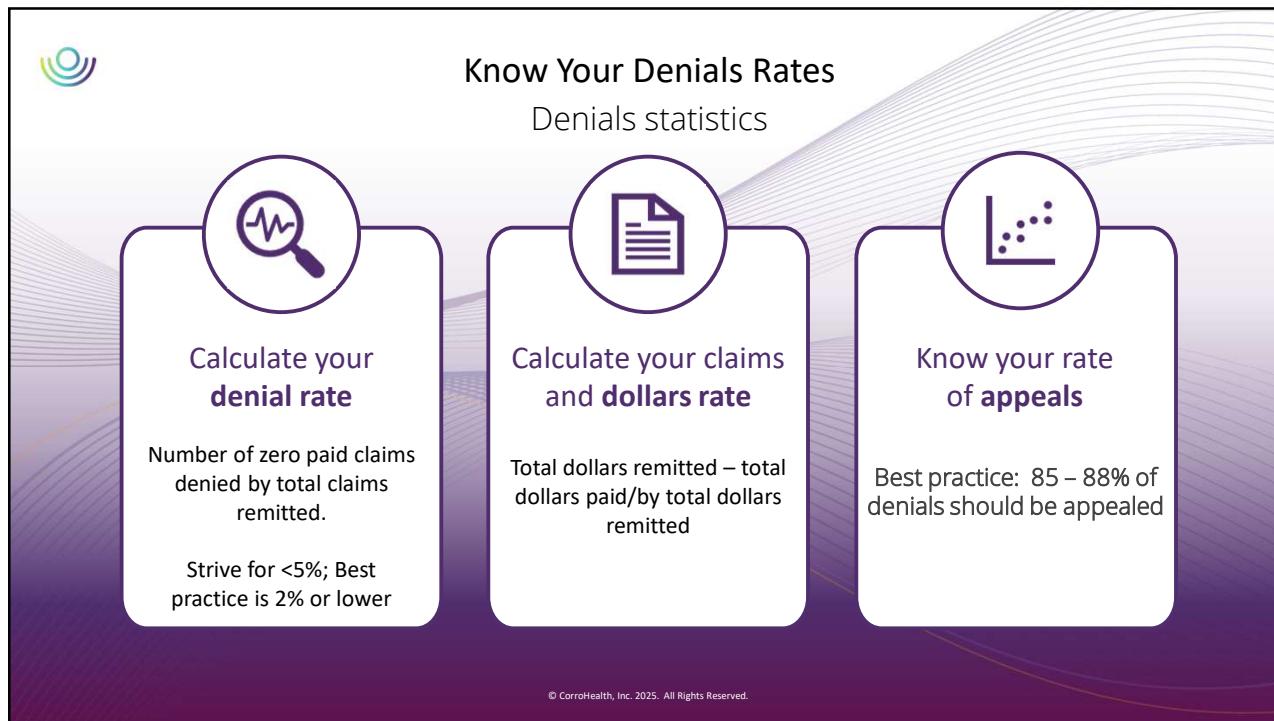

# Strategies

8

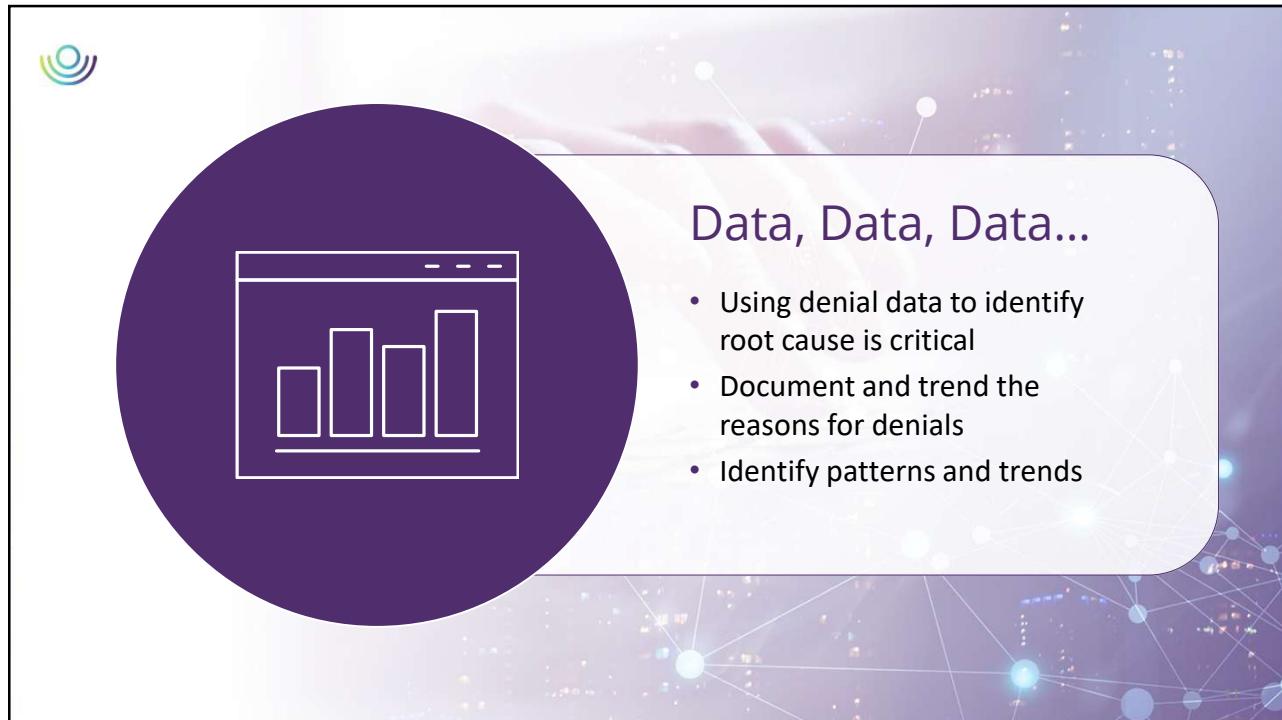

4

9

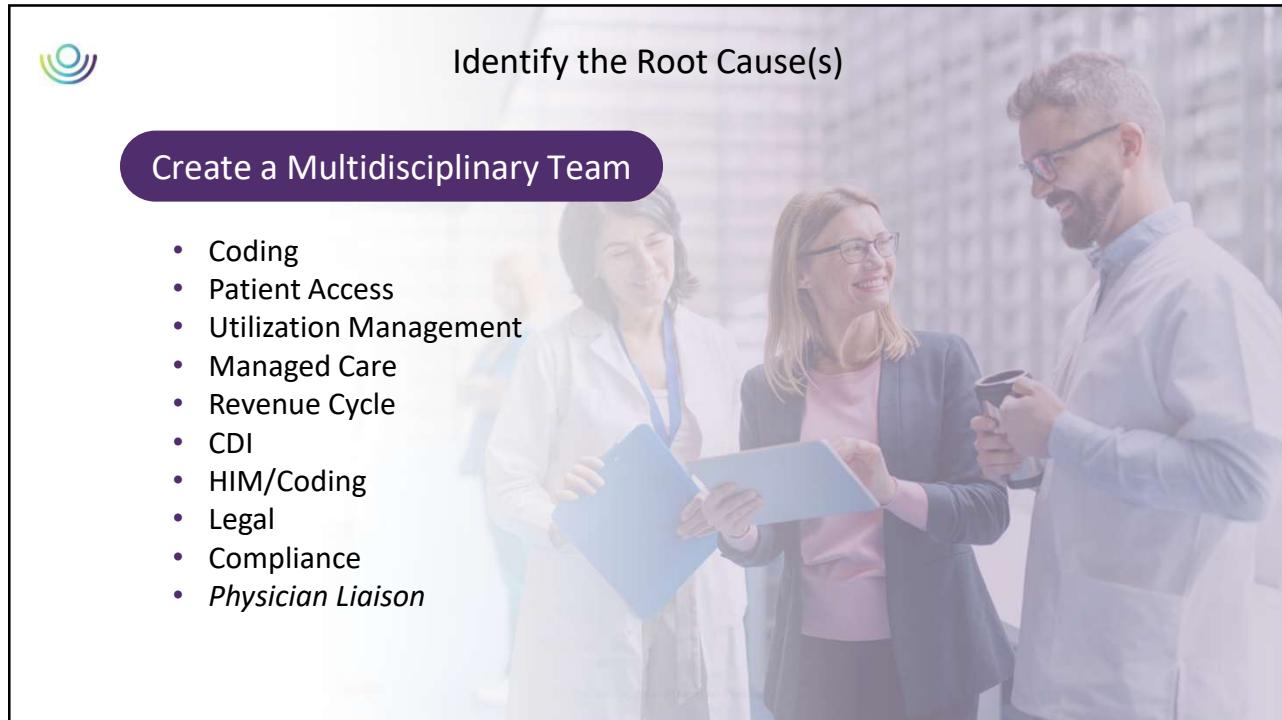

10

**Data, Data, Data...**

- Using denial data to identify root cause is critical
- Document and trend the reasons for denials
- Identify patterns and trends

11

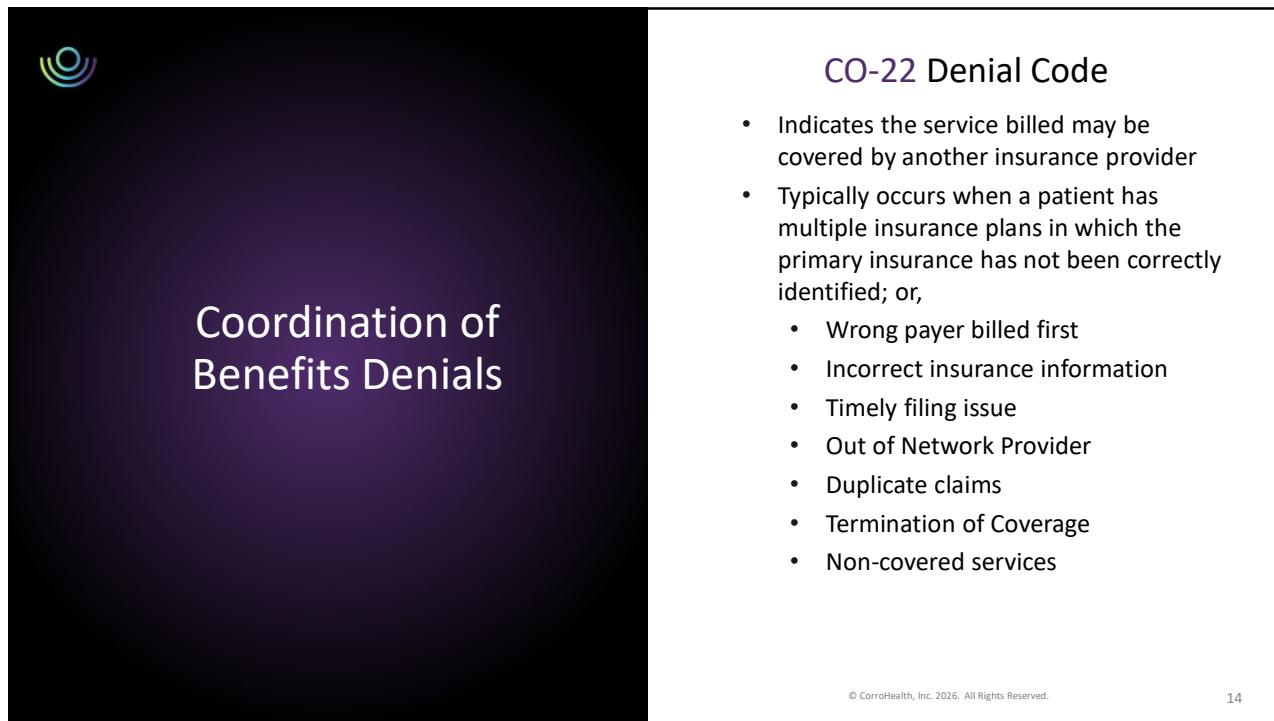

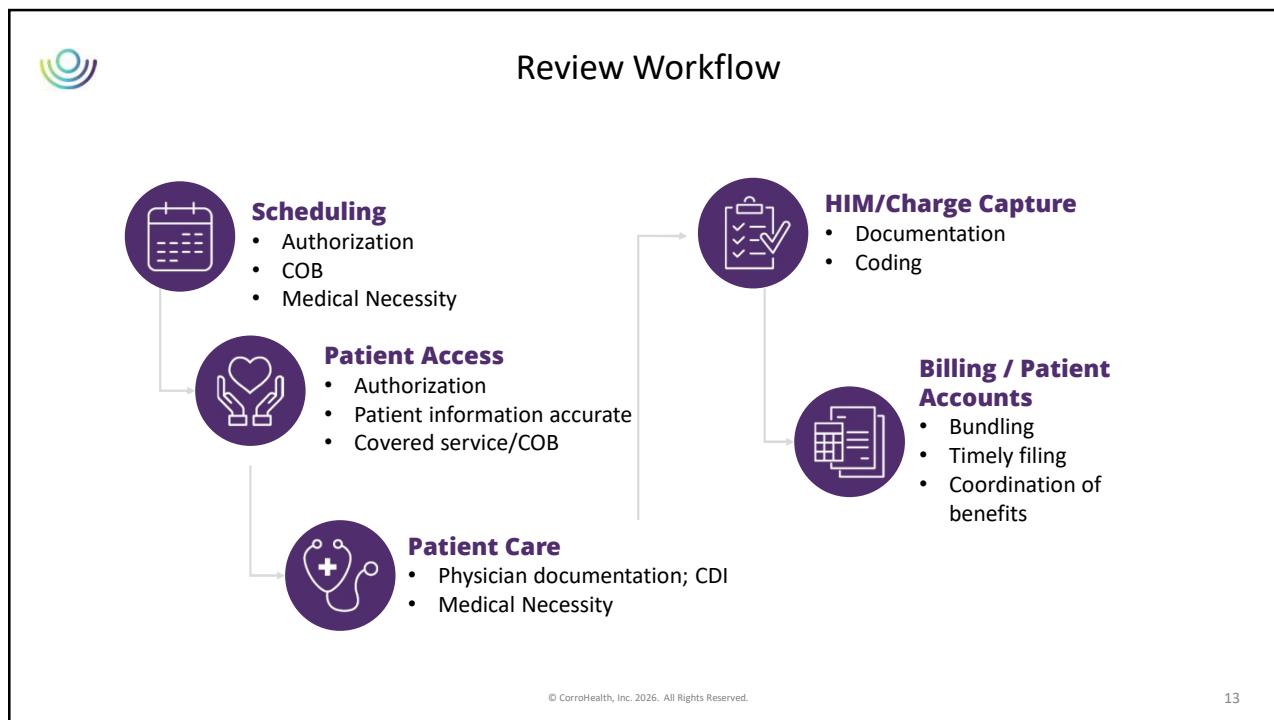

**Identify the Root Cause(s)**

**Create a Multidisciplinary Team**

- Coding
- Patient Access
- Utilization Management
- Managed Care
- Revenue Cycle
- CDI
- HIM/Coding
- Legal
- Compliance
- *Physician Liaison*

12

# Accurate and Complete Documentation/Coding

15

## Documentation Drives Revenue

- Clinical documentation is the “workhorse” of the revenue cycle.
- Major pain point for clinicians
- Often a lack of understanding of how critical timely, accurate documentation directly influences quality scores, clinical outcome and reimbursement.
- Improvements:
  - Educate physicians
  - Use technology as reminders and
  - Provide feedback—including positive
  - Include the entire enterprise—not just the hospital

© CorroHealth, Inc. 2025. All Rights Reserved.

16

16

## Denials Prevention – Coding

### Code to the highest level of specificity

- Capture acuity by coding CCs and MCCs according to the updated coding clinics and coding guidelines
- Look for missed documentation opportunities
- Focus on DRGs with CC's and MCC's
- Productivity is important, but quality is key

### Develop a robust query process to prevent under-coding

- Quality queries based on ACDIS query guidelines

© CorroHealth, Inc. 2026. All Rights Reserved.

17

## Denials Requiring Appeal

Days, service level of care denied for no concurrent authorization

Claim denied for elective service without pre-authorization

Not a covered service

Charge/procedure as bundled

Timely Filing

© CorroHealth, Inc. 2026. All Rights Reserved.

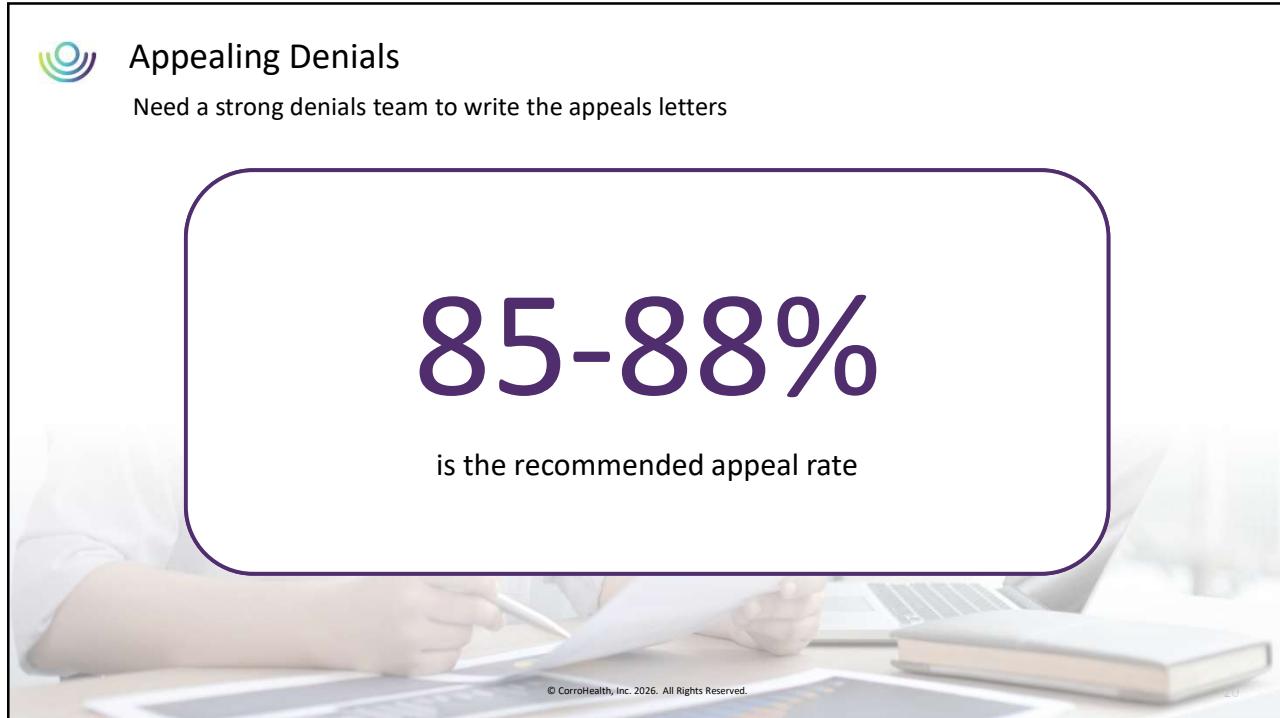

18

18

# Appeals

19

 **Appealing Denials**  
Need a strong denials team to write the appeals letters

**85-88%**

is the recommended appeal rate

© CorroHealth, Inc. 2026. All Rights Reserved.

20

## Tips to Writing Appeal Letters

- Appeal every case where there is documentation to support the original coding
- Keep the appeal letter concise to the reason for the denial

- Include Clinical and Coding Expertise to write the appeal

- Include copies of the medical record where helpful

- Include official coding guidelines

- Include the credentials of those who have reviewed and are involved in the appeal

© CorroHealth, Inc. 2026. All Rights Reserved.

21

# Monitor, Track, Report

22

## Monitor, Track and Report

- Total denials
- Total appeals
- Cases not appealed and why
- Total cases overturned and financial impact
- Second-level denials
- Failed appeals

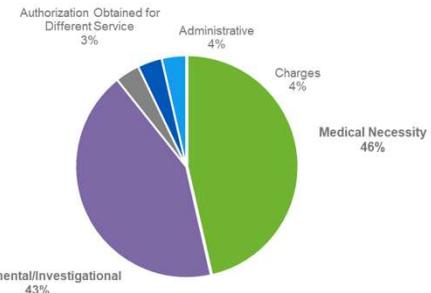

© CorroHealth, Inc. 2026. All Rights Reserved.

23

23

## Monthly Clinical Denials

Denial Reason	Total # Accts	Acct Balance	% of Total Denials	% of Acct Balance
Medical Necessity	13	\$58,512	53%	46%
Experimental/ Investigational	12	\$44,570	41%	43%
Authorization Obtained for Different Service	1	\$4,187	4%	4%
Administrative	1	\$1,287	1%	4%
Charges	1	\$1,113	1%	4%
<b>Grand Total</b>	<b>28</b>	<b>\$109,668</b>	<b>100%</b>	<b>100%</b>

© CorroHealth, Inc. 2026. All Rights Reserved.

24

24

# Education, Training, Report & Continuous Process Improvement

25

## Educate, Train, Report

and Continuous  
Improvement

- Regular performance audits
- Review denials analysis data
- Work together
- Education – Physicians, Coders, Billers
- Collaborate with Payors
- Know the healthcare trends
- **Engage in continuous process improvement**

26

Next Level -  
 Management to  
 Prevention

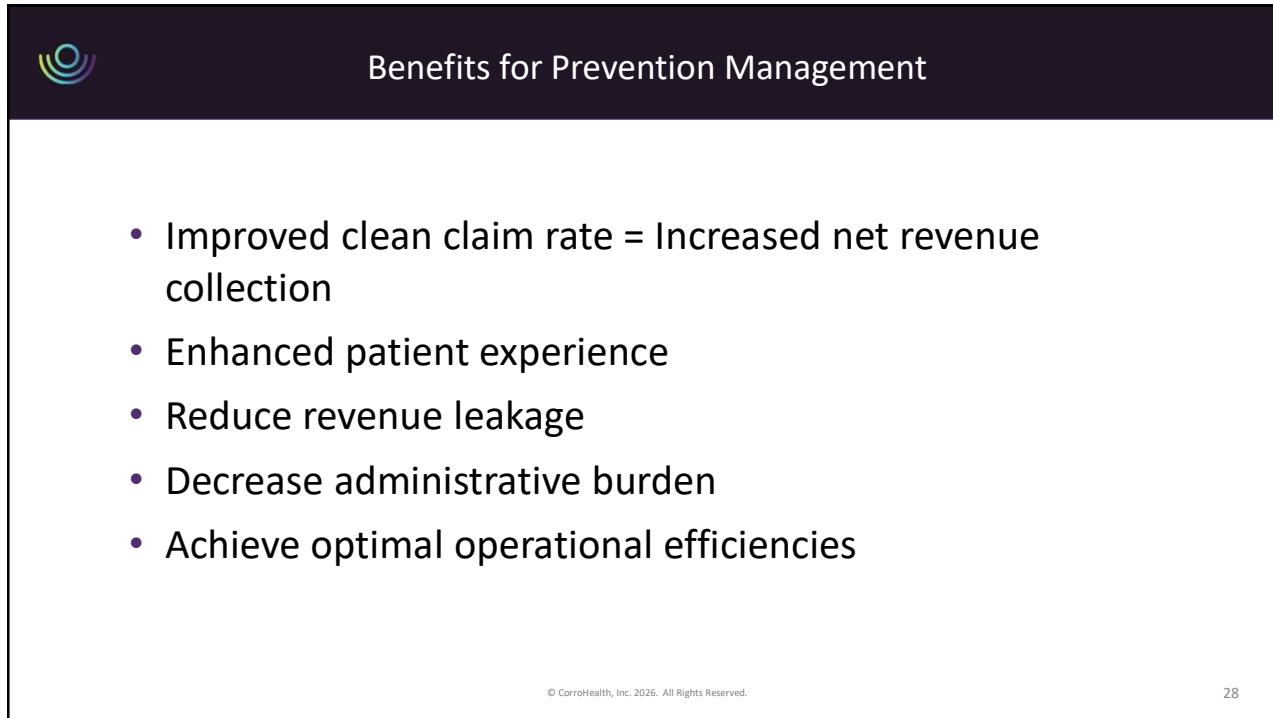

## Transition to Denials Prevention

- Departmental training
- Engage clinical staff
- Build out front-end edits to stop denials before admission or service
- Implement technology to combat denials, i.e. Predictive Analytics tool; Front-end software
- Outsource denial management services

© CorroHealth, Inc. 2026. All Rights Reserved.

27

27

Benefits for Prevention Management

- Improved clean claim rate = Increased net revenue collection
- Enhanced patient experience
- Reduce revenue leakage
- Decrease administrative burden
- Achieve optimal operational efficiencies

28

28

## In Conclusion

Ongoing communication and collaboration

Consistent and timely review of denial data

Successful appeals letter writing

Prevention

© CorroHealth, Inc. 2025. All Rights Reserved.
